#### Function:

A functional, versatile and durable pulley system designed to conform to any rehab setting, the 393 offers a total body workout from either a standing or seated position.

The 393 is an adjustable column pulley with bilateral double handles. The handle heights and start position are adjustable in 2" increments.

Four modular platforms allow the pulley system to be either wall mounted, free standing and / or mobile.

Starting weight is 2.5 lb / 1.1 kg which is ideal to rehab function, strength, core, stability and coordination. Height adjustable support bar and lat pull station with lat bar are provided standard.

#### Construction:

Durable powder coated 11 gauge tubular steel and polished stainless steel adjustment column. High speed pulleys and military spec rope provide the maximum of uninterrupted service.

#### Features:

- A 75 lb / 34 kg physical weight stack providing 37.5 lb / 17 kg of resistance weight with a 2.5 lb / 1.1 kg top plate and 1.25 lb increment resistance changes
- A 76" vertical scale adjustable in 2" increments for accurate and repeatable treatments
- Two single grip handles connected at an adjustable pivot pulley to allow for a wide range of motion.

The modular design allows the pulley system to be converted from wall mounted to free standing / mobile and/or expanded to a double or tri free standing pulley.

#### Endorphin's industry best warranty:
